

# Lesson 1-1 → Introduction to Statistical Data

## Data (information)

Statistics

Facts

data with variability  
data where different  
people can answer  
questions with different  
correct answers

Numerical

Categorical

How many  
inches tall  
are you?

What is your  
favorite brand  
to wear?

What year  
was the  
Galvin built?

↳ math class likes numerical data the best  
because we can find mean, median, etc.
